

Statement from WV Democratic Party Chair on Bill Maloney's Pre-candidacy Filing Today

WV Democratic Party Chairman Larry Puccio made the following statement after failed Republican gubernatorial candidate Bill Maloney filed pre-candidacy papers today to run again next year:

“West Virginia voters rejected Bill Maloney two months ago despite his spending millions of the dollars he made letting our jobs go to Pennsylvania. Maloney wasn't able to hide his risky ideas from the voters and he will once again learn next year that West Virginia is not for sale. Voters appreciate Earl Ray Tomblin's track record of responsibly lowering taxes and fostering an environment where businesses want to create jobs.”
